AHS has worked with local school divisions to create a protocol to help school staff address non-suicidal self-injury in the school setting. This is commonly referred to as the ***Non-Suicidal Self-Injury Protocol***. As part of the protocol, an information sheet was developed to support parents to better understand NSSI and how to support their child with NSSI concerns.

The original version is in English and recently the Calgary Catholic School Board translated this NSSI Parent Information Sheet into a range of languages. They have shared these for your use.

**Non Suicidal Self-Injury** (NSSI) Protocol Parent Information Sheets offered in various languages below:

### [Not falling through the cracks - How Psychoeducational Assessments can help Foster Success!](#)

Does your child struggle in a mainstream classroom? Are you concerned that your child may be anxious, overwhelmed or inattentive at school? Does your child struggle to understand new academic concepts or lessons? Do you think your child needs extra support to achieve academic or social success? If you can relate to any of these questions, please join the presenters to explore when a psychoeducational assessment may be warranted for your child. Within the current session, presenters will provide parents and supports with an overview of how psychoeducational assessments can be helpful in identifying a child's strengths, areas of difficulty, and learning style, as well as help caregivers learn how to advocate through the educational system and community supports to foster growth and success.

### [Adolescent Dating Violence: Prevalence, Correlates, Outcomes and Prevention](#)

This presentation will introduce attendees to the topic of adolescent dating violence. The latest research on prevalence, correlates and outcomes will be reviewed, as well as best practices for prevention. The presenter will also review key take-aways for health care providers, parents and educators.

### [Marijuana and Development of the Brain](#)

Please join visiting Neuroscientist from New York, Dr. Diana Dow-Edwards to learn about:

- Pharmacology and anatomy of endocannabinoid system

- What exogenous cannabinoids do to developing nervous system
- Mental health consequences of adolescent marijuana smoking
