

BUS REGISTRATION, FEES AND PAYMENT SCHEDULES

Busing Fees

Westmount Charter School sets its busing fees on a break-even basis. It currently receives a transportation grant from Alberta Education, which is directly applied against the cost of providing the busing service. Each bus costs approximately \$60,000 per year to operate. The grant is provided for students who reside greater than 2.4 km from the school and ride the bus as of September 30th. The total cost per rider is \$1400, of which up to \$549 is funded by Alberta Education grants. The balance is covered by user fees paid by parents of busing students. Administration fees may apply. Waivers for transportation fees are not available.

Typically your fee will be posted on your student account in October.

REGULAR REGISTRATION

Currently enrolled students are to register for next year's busing service at the same time as they re-register for school. The Transportation registration is incorporated into the Online Registration for Westmount. Parents will be reminded of the upcoming registration deadline and are required to indicate their transportation choice at this time. A \$100 deposit is required per student registered for the bus service. This deposit is nonrefundable. The remaining balance is due in October once accounting has posted it to your account in the family zone.

Register for next year before April 30th

Students' addresses are factored into route/stop planning for all full-time riders

- Full annual Westmount busing fee applies
